Listing of DD/I Position Vacancies

1. There are a number of people in the Geographic Area who have expressed some concern over the fact that several fairly important vacant positions have not been listed and information concerning the vacancies circulated. The feeling has been expressed that if all position vacancies were listed that ORR personnel as well as others would see a greater value to be derived from the listing. Also, it is felt that a more equitable consideration would be given to candidates who could conceivably qualify for the position but who do not have the opportunity.

3. It has been recommended to me that all position vacancies be included in the listings or alternatively that a policy statement be issued to clarify why some positions are not listed. I pass these thoughts along to you for your consideration.
